COLLECTION**

We've carefully selected dozens of up-to-date titles to ensure that everyone in our community can find the right resources for their unique dietary needs on our shelves while prioritizing titles that support building healthy relationships with food and your body image.

We worked together with Ashburnham's own Breezy Hill Farm and local craftsman Charlie McConologue to create a space for **ACCESSIBLE COMMUNITY GARDENING!**

Last year, the Library secured a \$20,000 At the Table grant funded by the Institute of Museum and Library Services and the Massachusetts Board of Library Commissioners to support programming, initiatives and other offerings that promote food literacy. Food literacy is an understanding of the impact of your food choices on your health, the environment and the economy.
